*The executive committee signing
the new engine contract.*

...From the Chief...

2018 is proving to be another busy year for our crew. With fundraisers, ongoing training, building and apparatus maintenance, and calls; it takes many hands to keep a volunteer fire department running smoothly. Aside from all that, our apparatus committee has been working on the specifications of a new fire engine/rescue to replace our 1988 Darley Engine. Countless hours have been invested in designing this truck to best meet the needs of our community and to provide mutual aid to surrounding departments. In July 2018 we signed a contract with KME Fire Apparatus from Nesquehoning, PA, to build this custom pumper/rescue for us. The truck will feature an 8 man cab, a 1,000 gallon tank, a 1,750 GPM pump, 4 crosslays plus 2 - 1 $\frac{3}{4}$ " bumper lines, air and electric reels, full rescue capabilities and many more features. A truck of this magnitude also comes with a high price tag of \$552,000. Most of these funds need to be raised by our community as we were rejected for federal funding.

So how can you help? The easiest way to help is to patronize our many fundraisers throughout the year. This is where the majority of our funding comes from. If you would like to lend a hand, we can always use help at our dinners and other fundraisers or if you wish, we can also use more help on the fireground. Stop in at the firehouse on any Monday evening to inquire about volunteering.

Currently we have a very strong and dedicated group of volunteers. Some of the new ones will be starting their firefighting essentials class next month. Four others will be completing their Firefighter I test this fall to be fully certified for interior firefighting operations.

We have a few fundraisers planned yet for the end of this year and many more for 2019! Be sure not to miss any of them. We still have some tickets left for our first ever Gun Bingo on September 8th! We hope to see you all there!

Our Ladies Auxiliary has been doing an outstanding job of orchestrating fundraisers!! In addition, they have been providing food for many auctions and other events held at the social hall. Please give them a "Thank You!" if you meet any of them! That is all the pay they ever receive!

For info on auxiliary membership contact Deb 570-541-1423

We will be hosting a fire police class here in the near future. This is a great way to help us out, parking cars at events and directing traffic at emergency incidents! The training required is fairly minimal. Please stop in on any Monday evening if you are interested!

2018 Fundraiser Events
